

I am a creative designer.

I am a visual designer, living and working in the San Francisco Bay Area. I am currently working at HelloSign as one of their Senior Communications Designers. I love what I do.

Selected work.

HelloSign

Role: Senior Communications Designer

Working at HelloSign has been a great experience. The team is very supportive, and collaborative. I have had the opportunity to work on projects such as, the design of the website, online ads, blog illustrations, a booth for Dreamforce, swag, and in-product illustrations. I am so excited for what's next.

Evernote

Role: Visual Designer

Evernote reached out to me, about a role as one of their visual designers. It was my introduction to working in tech. The team was large when I started, with 3 designers, 1 illustrator, a videographer/photographer, and a creative director. I learned so much working there and from the people that I worked with.

Illustrations

Role: Illustrator

Most nights after getting home from work, and walking my dog, I like to spend some time illustrating. I practice with new brushes, styles, and colors. I feel like I really found my style within the last few years. Here are some of my recent illustrations. Some of them have been featured on Behance's Illustration page.

What I am all about.

I am a self taught visual designer. I live in Oakland, California, and love to hike and play with my dog, Badger. I am passionate about design and illustration, and have worked hard to get to where I am today. Thanks for looking!
